To: Board of Trustees

From: Shawn Pratt, Superintendent

Subject: Improvement Plan Updates

Date: November 16, 2026

As part of McKinney ISD's commitment to continuous improvement and student achievement, a Targeted Improvement Plan (TIP) and Turnaround Plan (TAP) have been developed for campuses identified for intervention under Texas Education Code Chapter 39. These plans are aligned with district priorities and the Texas Education Agency's Effective Schools Framework, emphasizing strong instructional leadership, high-quality Tier 1 instruction, data-driven practices, and improved student outcomes.

The plans were developed collaboratively with campus and district leadership, with support from regional and state partners and input from appropriate stakeholders. Each plan identifies priority areas for improvement, measurable student outcome goals, implementation milestones, and strategies for strengthening campus systems and instructional practices.

Progress will be monitored through ongoing campus leadership reviews, district check-ins, instructional observations, and formal performance-management meetings. District leadership will review implementation and student outcomes throughout the year. Plans will be revised as needed based on evidence of implementation and student performance.

Impact Statement: Following a comprehensive needs assessment, the TIP and TAP have been developed. If approved by the board, it will be submitted to the Texas Education Agency for further review.

It is Recommended: The Board approve the TIP for Caldwell Elementary and TAP for Webb Elementary.

Resource Person(s): Jennifer Akins, Molly Hovan, and Melanie Raleeh

Respectfully Submitted,
Shawn Pratt
Superintendent
