Board - Just a reminder that our meeting tonight is back in the normal boardroom at MES. Also, we be reverting back to our original seating arrangement. I tried last meeting to adjust seating to avoid further tension among the Board members. I got negative feedback directly and indirectly regarding the seating changes. Our seating arrangement will be among topics discussed on January 31st.

Dr. Cohen and I have a planning meeting with our IASB facilitator next week. I will provide more details as they become available.

Regards

Eric
