#### 1110 - ASSESSMENT OF DISTRICT GOALS

One of the major functions of the Board of Education is to work with the administration to establish the goals by which the District can accomplish its mission and to provide the resources necessary for their accomplishment. Because of the importance the Board places on accomplishing goals, it has established the following policy for effective assessment of the District's progress toward their realization.

In conjunction with its annual evaluation of the Superintendent, the Board shall also provide the time for both the Board and the administration to assess the progress of the District, during the previous year, toward the achievement of current goals. Both the Superintendent's evaluation and the progress-assessment of goals shall take place at a time of the year when the following conditions are most favorable to assure this policy operates as intended.

This annual process of assessing/evaluating the Board, the Superintendent, staff, programs, and resources shall not be considered finished until:

- A. District goals and the strategies and actions being used to accomplish them have been reviewed and reprioritized;
- B. revisions have been made in light of what all of the evaluation data for that year has indicated should be changed or continued in order to improve the accomplishment of District goals;
- C. the Board develops and implements a plan to improve its own performance as the body charged with the responsibility for the governing of the District.
- D. the Board's own effectiveness in providing direction to the Superintendent has been reviewed.
