

Tablets

Each tablet has 2 user accounts.

1. Teacher - This account is there if teachers want the ability to download and install applications
2. Student - This is a restricted account with the limits that were described your request.

If teachers want to install applications they will do the following.

- a. Power on device
- b. Swipe "Down" from the top and notice the menu that comes down
- c. On the top right, you'll see a person (either green, or yellow). Click that.
- d. Then select the teacher account. this will switch to the teacher profile
- e. Enter the local password -----> Teach@pp\$ This will open the teacher profile
- f. Then the teacher can click on the 'Play Store' and select the app to download.
- g. After the app is installed, go to (in the teacher profile) settings > accounts, then click the "gear" next to student. Here you can enable the app for student use by clicking the slider to the right.
- h. Now log out of your profile - and switch into the students (gliding from top down, click the person image, select student)

Note: Change must be done to each tablet in the same steps.
