Supply Chain Disruptions and Pricing Variability Disclosure

Due to ongoing component supply constraints and pricing volatility within the technology industry, manufacturers may implement price increases, surcharges, or changes to product availability with little or no notice. These changes may occur at any time, including after a quote has been issued or an order has been placed. Manufacturers have advised that all orders are subject to modification, repricing, or cancellation, even after order acceptance. Computer Solutions will work to communicate with both the customer and the manufacturer/vendor regarding any known or anticipated changes affecting pricing, availability, or delivery timelines. While Computer Solutions will make reasonable efforts to keep all parties informed, there are no guarantees to pricing, availability, or delivery dates until products have shipped and invoices have been finalized. By approving this quote and/or placing an order, the customer acknowledges and accepts these conditions.
