Dear Requestor:

The District received your FOIA request on Friday, March 6th, 2026. The District is extending the time for response by an additional five (5) business days pursuant to FOIA Section 3(e)(vi). A further response will be provided on or before Friday, March 20th, 2026.

Please also be advised that your request may be overbroad and unduly burdensome to comply with, as it would require the review of hundreds of potentially responsive records, including many emails the Superintendent sent to Board members without a response. Notably, your request is categorical and appears to seek all communications to or from any Board member related to facilities planning, construction projects, or related decisions over a period of more than 10 months. As a result, the District is extending you an opportunity to narrow this part of your request to a manageable proportion or to confer about the same. If you do not narrow your categorical request to a manageable scale, as determined by the District, the District may exercise its right under Section 3(g) of FOIA to deny this your records request.

Sincerely,

Dr. Clayton J. Theisinger
FOIA Officer
