## JOB ESTIMATE

**TO:** BISD Baseball- Rowe

JOB DESCRIPTION
Work to be performed: We will start by removing the existing chain link fencing from one dugout all the way around the back stop to the other dugout.
We will build a 32" high CMU block wall that we will anchor/ bond to the existing concrete. We will concrete the seams and interior of the blocks through the centers in order to install the top cap (can all be painted at later time)
We will also set (4) anchoring poles in order to anchor/ stretch the new netting off the top of the wall. We are figuring the netting to be one solid piece and be 40' tall. All cable and anchors will be stainless so they do not rust. The "eye" hooks will be fastened through the CMU wall and fully concreted for added support

ESTIMATE	AMOUNT
Material and Labor for 32" CMU wall:	\$8,220.00
Material and Labor for 40' Netting back stop:	\$16,430.00
<b>ESTIMATE GOOD FOR 15 DAYS</b>	<b>TOTAL ESTIMATED JOB COST</b> \$24,650.00
