

Serving as a cornerstone of the Hallsville ISD Technology Department since 1998, Kenton Simpson provides the critical data architecture that keeps the entire district running seamlessly. As our specialist in system integrations, Kenton expertly manages the complex, behind-the-scenes data synchronization between Skyward and core instructional platforms like Google, Clever, and dozens of third-party systems. His meticulous work ensures that student accounts, class rosters, and administrative records are continuously accurate, secure, and ready for teachers and students without interruption. With nearly three decades of dedicated service to Hallsville ISD, Kenton's deep institutional knowledge, technical precision, and unwavering reliability make him an indispensable leader in our department and an invaluable asset to the district.
