

LJSD Board of Trustees
Transportation Report - August 19, 2026
Summer Bilski - Transportation Director

- We are completing our Routing for Gen Ed students and will be working to finalize routes for Special Needs students.
- We are currently going through approximately 1300 registrations. We project we will be getting roughly 350- 400 more as the days get closer to beginning of school.
- We are in the middle of training a couple of relief drivers and have 2 more interviews coming next week. We are very excited about that.
- We are working on our big SDE Preservice Training for all drivers on 8/31. It makes for a long day but it is necessary and we are excited to see all of our drivers and catch up a little.
- We were granted a small STOP ARM grant from the State and will happily use their money for our camera systems.
- I am happy to say that our new Admin Asst Clarissa is working out great and we are officially all finally CDL certified in the shop. Exciting stuff!
