Time Clock Proposal

Date: 3/4/2026	Project Location:
Submitted To: Bryan Neubacher	District 128
SD 128	4 Schools
12809 S. McVicker	12800 S Austin Ave
Palos Heights, IL 60463	Palos Heights, IL 60463
	Addendum #'s:
	Date of Plans: N/A

Scope Of Work

Tri-M Electric will furnish the materials & perform all the labor necessary for the following during regular business hours Monday-Friday.

PLEASE NOTE: NO WARRANTY ON OWNER/DISTRICT PROVIDED MATERIAL & EQUIPMENT.

1. Purchase and installation of 20 replacement astronomical time clocks.
 - a. These time clocks are pre-programmed to follow the daylight throughout the year so there is no need for seasonal adjustments.
 - b. They are pre-programmed to account for daylight savings. (Daylight savings can be turned off if daylight saving ceases to be observed.)
 - c. They are pre-programmed to compensate for leap year.
 - d. They can be programmed for any combination of dusk, dawn or specific time on or specific time off.
 - e. They have a capacitor for backup power. No batteries need to be replaced.
 - f. They can be manually powered on and off with integral push buttons.
 - g. We can set "no lights" days if for example the exterior lighting is not needed for summer months.
2. Removal and of the existing time clocks.

Cost for this project: \$13,710.00
