COMMUNITY USE OF SCHOOL BUSES

The general philosophy of the Board of Trustees is that transportation equipment purchased by the school district is to be used primarily for school purposes and that taxpayers will not be expected to subsidize busing equipment or personnel not necessary for school district purposes. Nevertheless, it is the policy of the Board of Trustees to make available for use by appropriate community groups school transportation equipment to the extent that such use does not impinge upon or impair use for school district purposes. ~~The school district is not authorized to conduct common carrier transportation (i.e., non-school sponsored transportation of staff, parents or the public).~~

The leasing of school buses with or without the use of District employed drivers may be done only within the authorized scope enacted by the passage of SB 164 of the 2017 Legislative session.
