General Tagging Procedures

General Tagging Procedures

The Industrial Appraisal Company recommends the following tagging procedures. Variations on tag placement are welcomed, but any desired variations and/or unique tag placement must be discussed with the Appraiser prior to the start of the field inventory work.

1. EASE OF IDENTIFICATION

Tags will be placed in consistent locations on similar assets. Consistency increases the ease of identification by internal staff and outside auditors.

2. DETRACTABILITY

The tag placement will take into consideration the appearance of a tagged asset in specified high visibility areas e.g., Executive Offices. The appearance of an asset should not be compromised by placing the tag on an area that will diminish its appearance.

3. NO OBSTRUCTION OF WORK ACTIVITY

Tags will not be placed on movable parts, protective glass covering readouts and measurements or on safety decals.

4. PHYSICAL CONVENIENCE

On assets that are bulky or heavy and would require movement to access the proper location, tags will be placed on the most convenient location. Tags will be placed on a flat surface to insure readability by a hand-held scanner.

5. EQUIPMENT AND RECOMMENDED TAG PLACEMENT

The following lists various assets and the recommended tag placement.
