Recommendation(s):

The Board of Education is asked to approve the following changes for 2027-2028 Course Catalog.

Purpose:

The attached document outlines the proposed changes. The Course Catalog outlines courses offered at the high school level and guides counselors and families in determining schedules. The changes reflect updates to course prerequisites, which limit students' ability to enroll, and will open access to more rigorous courses for students. Finally, many of these proposed changes to our Career & Technical Education Programming are the results of engaging our teachers and broader West Allis community in a Comprehensive Local Needs Assessment earlier this spring.

Pending approval, the 2027-2028 Course Catalog would be updated and shared with high schools for course requests.
