Re Board Report

Date 8/26/2026

Staffing

We have recently had a few drivers resign and are actively recruiting new drivers. Despite the vacancies, all routes continue to be covered, and we are pleased that we have been able to maintain transportation services for our students.

Fleet and Maintenance

Over the summer, the bus fleet went through a thorough maintenance schedule in preparation for the new school year. Our mechanics worked to ensure buses were serviced and ready to safely transport students as the school year begins.

Technology and Communication

As student information continues to be added and refined in the new routing software, bus attendance records will become more accurate. Schools will also have access to an arrival board showing estimated bus arrival times, allowing staff to better anticipate arrivals and plan accordingly.

Training on the new system is ongoing, with features being implemented as staff becomes trained and the system is ready for use. Drivers are looking forward to the additional support the system will provide in optimizing routes based on actual rider attendance and transportation needs.

Respectfully,

Corrina Horton
Transportation Supervisor
Chelsea School District
