

Board Report for Assistant Superintendent

September, 2026

Strategic Plan Focus Areas

Engagement

- We had a great few days with our staff on August 24th through 26th. We so appreciated the *Significance in Simple Moments* that Jon Petz talked about to all the staff. It was great to have staff participate and engage as we move together into the school year.
- We have been hiring across the district, and have found some fantastic staff to support our students. We have a few more areas of need, however, and have plans to support students during the hiring stages.

Portrait of a Graduate

- New Staff Orientation was a great opportunity to talk about how the district functions. We also held CPR and ALICE training for staff. Multiple staff who participated have reached out to thank us and let us know how much they learned on those days.

Health and Safety

- We continue to work toward excellence in our planning and efforts around safety, security, and positive health supports for both students and staff. Our Emergency Operations Plan and Employee Assistance Plan are two examples of the ways we are strengthening these supports and prioritizing the well-being of our school community.

Thank you for allowing me to serve our community!

Respectfully Submitted,

Marcus Kaemming
