Revenue Trends

Revenue Limits

In 1993 Wisconsin State Statute 121.90 placed a limit on the revenue a school district is entitled to receive from general state aid and local property tax levies for the General, Non-Referendum Debt and Capital Expansion Funds, also referred to as Fund 10, Fund 38, and Fund 41 respectively. The maximum limit is based on student enrollment, the Consumer Price Index, and each district's-controlled revenue from the previous year.

Revenue limits have been and will continue to be a topic of debate at the state level.

Equalization Aid

Equalization aid is state aid which may be used in financing the general educational program as the district sees fit. Changes to the aid formula, significant changes in district property value, and/or changes in student enrollment could significantly impact the amount of equalization aid the school district receives. The School District of Tomahawk monitors trends in each of these areas to estimate future impact. For our budget projection purposes, equalization aid support is projected per current state law.

When revenue limits were fully implemented in 1995, the state provided a two-thirds funding commitment to districts on a state-wide average, with the level of state aid received by individual districts fluctuating above or below the two-thirds level depending on the district's per-student shared costs and equalized property values. The amount of actual state equalization aid to the School District of Tomahawk General Fund budget over time is below:

Local Property Tax Levy

Due to our low percentage of equalization aid, the local levy is the greatest source of revenue for the School District of Tomahawk. Generally, the higher the equalized property valuation in a school district in comparison to other school districts in the state, the lower the amount of state aid the district receives. Below is the percentage of the district budget that has been supported by the local tax levy:

District Debt Fund (Fund 30)

The district currently has no outstanding debt on June 30, 2026.

Capital Projects Funds (Fund 40)

A School Board with an approved long-term capital improvement plan may establish a “trust” that is funded with a transfer from the general fund. In July the School Board voted to deposit \$800,000.00 into the Capital Projects Funds to address district long term capital maintenance needs. These funds may only be used for the purposes identified in the approved long-term capital improvement plan.

Community Service Fund (Fund 80)

The School District of Tomahawk's Community Service Fund (Fund 80) was primarily established for Community Open Swim. The Board of Education approved that starting with the 2015-2016 school year that all Middle School Athletics be included in Fund 80, in the 2018-2019 school year the School Resource Officer was added, in 2023-2024 the Community Education Program was added and in 2024-2025 the Pool Director was added. For the 2026-2027 school year the Community Education Coordinator and the Pool Director positions have been combined. These programs meet the Wisconsin Department of Public Instruction's requirements for use of the Community Service Fund as they are available to the general public. A combination of user fees or direct tax levy fund the costs associated with operating these programs. These programs have been annually audited by an external audit company for comparison to the Department's criteria and has been deemed to meet the criteria with no audit findings regarding the use of the Community Service Fund for the program.

The programs include open swim hours during the day for the entire community to utilize the district's swimming pool and all Middle School Athletics. These programs are designed to break even each year, but have carried a fund balance from year to year to be able to purchase new equipment, supplies and major repairs as needed to operate.

Comparative Budget Expenditures Per Student

Comparative Expenditures – Comparative spending is a more accurate way to measure the “education-related” spending in a school district. This measure accounts for only those costs directly associated with serving students, and excludes transportation, capital expenditures and debt service, and miscellaneous expenditures. This also allows for more meaningful spending comparisons between districts.

Property Tax

Tax Rate History

The tax rate has fluctuated between \$5.35 and \$7.11 over a period of the last five years. The charts below illustrate the history of our mill rate. As a reminder, the mill rate is the amount of tax assessed per \$1,000 of property valuation.

District Enrollment Trends

Student enrollment projections are a significant consideration when developing a district budget since enrollment drives the amount of revenue the School District of Tomahawk is eligible to receive through state aid and local property taxes. Student enrollment also directly influences instructional and support staff levels which affect budgets.

Since the 2017-18 school year the district enrollment has decreased by 150 students. The projected enrollment for the 2026-27 school year is 1068.

PROPOSED BUDGET SUMMARY

FYE June 30, 2027

The proposed budget and tax levy for the School District of Tomahawk for FYE June 30, 2027 is based upon an estimated fall district equalized valuation of \$2,824,056,367. The actual levy rate (mill rate) will be determined based on the certified October 2026 equalized valuation. If the equalized valuation increases, then the levy rate will decrease. State equalization aid is based on student enrollment and the equalized valuation of the previous year.

Proposed property taxes for 2026-27 are:

General Fund	\$ 14,843,610
Community Service	\$ 310,000
Property Tax Chargeback	<u>\$ 0</u>
Total Levy	\$ 15,153,610

This represents an increase of \$478,235.00 from the previous year (2025-26) and a tax levy rate of \$5.37 per thousand of valuation compared to \$5.35 per thousand in 2025-26.

The revenues proposed in this budget cannot exceed the allowable revenue caps as determined by the State Department of Public Instruction. Revenue caps are determined by student enrollment and equalized valuation. If the enrollment should increase, then the revenue caps would increase and vice versa.

The Department of Public Instruction estimates that the State Equalization Aid will be \$1,280,990.00. This is a decrease of \$226,057.00 from the year just ended. A change in equalized aid only changes the amount of our tax levy. It does not increase or decrease our revenue cap.
