Re: Course Revision-Woods and Construction 1

I respectfully recommend the revision of Woods and Construction 1, a year-long unweighted course, into the following:

- Woods and Construction 1, semester-long unweighted course, open to grades 9-12
- Woods and Construction 2, semester-long unweighted course, open to grades 9-12

Transitioning Career and Technical Education (CTE) pathways from year-long courses to semester-long modules accessible across grades 9 through 12 maximize scheduling flexibility, expands early career exploration, and directly aligns coursework with postsecondary and industry demands.

This has been discussed and approved at the Curriculum Coordinating Council.

Thank you and please let me know if you have further questions.
