Re: Course Revision-Honors Pre-Calculus with Trig

I respectfully recommend revising our current year-long, weighted Honors Pre-Calculus with Trigonometry course into AP Precalculus, a year-long weighted course available to students in grades 9–12.

Joliet Junior College (JJC) will no longer offer Math 142 (Honors Pre-Calculus with Trigonometry) after the 2026–2027 school year. In response, we plan to align our existing curriculum with the official College Board AP Precalculus framework. Students enrolled in the course will be expected to take the AP Precalculus exam in the spring.

This course revision has been discussed and approved at the Curriculum Coordinating Council.

Thank you and please let me know if you have further questions.
