

Monthly Cafeteria Report

School: Brackett ISD

Reporting Period: September 2026

Prepared By: Brianne Henry, Food Service Manager

Date Submitted: September 4, 2026

The Cafeteria is in full motion and running smoothly. The Child Nutrition Program continues to provide nutritious, appealing and well-balance meals to the students. This month, our focus has been on maintaining high standards for meal quality and food safety, supporting cafeteria staff and encouraging student participation and ensuring the program is operating efficiently and in compliance with USDA requirements.

I have been keeping a close eye on all equipment and putting in operation tickets when necessary. There are a few building issues that I have addressed and have in process to get worked on. I will also be submitting the August reimbursement report as well this month.

I am pleased to provide the following numbers. The cafeteria served 3,737 breakfast from 8/13/26-9/01/26 and 4,493 lunches across the district.

Breakfast: We are serving approx. 129 - Kinder thru 3rd through the BIC (Breakfast in the Classroom). We are serving approx. 85 - PK, 4th and 5th graders on the old side daily and about 20 Junior High non- Athletes, and at least 65 JH boy and girl athletes on the old side. We are seeing the numbers for breakfast rise with the high schoolers on the new side to about 25 students daily.

Lunch: We are serving approx. 165 lunches pre-k through 5th. And approx. 90 lunches to JH and approximately 75 to HS.

I am very happy with those number for it being the very beginning of the SY!

If the first 13 days are any indicator of how the year is going to be -IT'S GOING TO BE AMAZING!
The hard work and dedication of the cafeteria ladies make the day!

Thank you,

Brianne Henry, Food Service Manager
