Parks Managers Report

Ongoing Improvement Project(s) progress: Very busy last few months with steady campers in and still working on getting things done fixed around the park. We have been working on keeping things clean. We have had quite the venturer's rowdy groups in the last couple of weekends, but it was handled. We have got the sign for the flagpole and stand came.

Building Maintenance: Brian spoke with Nick about the shingles on the storage building next to new bathhouse and he will have to come out and look at it. Also, we need a back porch or steps before we come back out in April.

Campsite activities & Site notes: We have started a little Critter finds throughout the Long Lake where kids or anyone can find little critters in bags as a little token of thank you from Park Management, and LOVE IT!!

Vehicle: Thank you Dan and the board for the Van and getting Gators for us that will be very handy

Equipment: One of the Polley on the Bad Boy needs to be worked on in the spring we have blown 3 belts this year and Brian at Fitzpatrick even agrees with getting that looked at.

Budget Adjustments needed/Budget look Ahead: None currently.
