

SCHOOL BOARD MEETING REPORT

Board Meeting Date: 16-Sep-26 Superintendent: Dave Valenzuela

Administrator/Staff: Geoffrey Butler

Type of Item: ☐ Informational ☒ Action

Please state your proposal briefly and clearly. What do you want the board to know, discuss, or decide?

The District is requesting the Board, as the contract review board, pre-approve the design services contract and authorize David Valenzuela to accept successful fee negotiations and issue a contract to arkitek: design&architecture, provided that the associated fees remain within the budget for design services.

Provide history/background information on your proposal:

The District finalized an agreement with the state for a Seismic Rehabilitation Grant at North Valley High School. The District successfully completed the formal RFP process for Design Services which included the public notice along with panel selection of proposal review and interview processes.

List the advantages of your proposal:

Approval of this resolutions keeps the District on pace for scheduling the NVHS Seismic Rehabilitation to potentially be completed during the summer break 2027.

List possible disadvantages of your proposal:

The large scope of the project requires proactive planning strategies for meeting deadlines. Delays in approvals have the potential missed deadlines, unavailable facilities for students and staff during the school year, or rescheduling the project out an additional year.

List possible alternatives that could also offer a solution to your proposal. Why were they not recommended?

An alternative is to wait for the design fee negotiations and present them for approval at the next board meeting in October. This was not recommended due to the delaying the project scheduling.

Superintendent's recommendation(s): **Approve:** Yes ☒ No ☐
