Board of Education Report | September 14, 2026

Enrollment

Robert Kerr currently has 362 students enrolled for the 2026–2027 school year. We are off to a great start and excited about the year ahead!

Robert Kerr Highlights

Our August 18 Open House was a wonderful success with strong family participation. Thank you to our PTAC for helping us kick off the year in such a positive way.

We have been working on positive behavior in the classroom, hallway, cafeteria, playground and on the bus. Our PBIS focus of the month is cooperation!

On September 11, Robert Kerr recognized Patriot Day, and the Madrigals performed for our students in the RAC. We appreciate them sharing their talents with our students and helping us commemorate this important day.

Safety Patrol, Student Council and Kerr Crew students have been selected to participate for the 2026/2027 school year! What a great group of Railroaders! Thank you, Mr. Howard for sponsoring these fantastic activities!

September Starfish Award

Congratulations to Mark MianECKi, our September Starfish Award recipient! Mark has been a tremendous support to our Special Education Department, taking on a significant workload without hesitation or complaint. His positive attitude, flexibility, and dedication to our students and staff exemplify what the Starfish Award represents.

Instruction & Student Support

Fall Acadience and NWEA benchmark testing is underway. Grade-level PLCs will use student data to guide instruction and increase achievement in reading and math. Our Title and Special Education teams are also beginning targeted small-group and classroom-based academic and behavioral supports.

A HUGE thank you to the Durand Educational Foundation (DEF) for fully funding Rocket Math for Robert Kerr! We greatly appreciate DEF's continued partnership and investment in resources that directly support student learning.
