Discipline Report

A parent information meeting was held before the beginning of the school year. Rules and procedures were shared with students and parents. Students have a clear understanding of what is expected from them. We had one cell phone violation and multiple students not wearing a school ID. One student is in DAEP serving days assigned last school year.

Principal's General Narrative:

It has been a very busy start to the school year! BISD staff welcomed parents and students during registration day. Parents were guided through the different stations that were set up in the library. Online forms were filled out, information pertaining to the new school year was shared with parents and students, and class schedules were passed out. The process ran smoothly without any delays. All students have been assigned their Chromebooks, and ID/door badges. Administration reviewed expectations with all Jr. High and High School students. Emphasis was placed on new rules and procedures and the most frequent infractions dealt with during the past school year. We started the year with volleyball games, track meets, and football scrimmages. Teachers continue to have common planning time and student intervention time. In planning sessions, teachers are having conversations about content and the challenges students face while learning specific TEKS. They are using their planning time to come up with meaningful lessons that target student needs. We continue to work diligently with Carnegie and have already conducted several walkthroughs to ensure proper implementation of the math program. As we move forward, prescriptive lesson plans will be available for learners at all learning levels. It is definitely going to be a great school year!
