

Football

The Tiger HS football team is off to an 0-3 start with one more non-district game to play before they kick off district play on Sept 25 @ Sabinal. With the Falls City Beavers coming into town this Friday, the Tigers are looking to continue to improve and hopefully secure their first win of the season.

The JH Cubs football team lost a close one in their season opener vs the La Pryor bulldogs but look to bounce back next week in their District opener on Sept 24 vs the Sabinal Yellowjackets at Tiger Stadium.

Volleyball

The Tigerette Volleyball program has continued to work hard through the early part of the season. Varsity competed at the Sonora Tournament and earned the Silver Bracket Consolation. The team has faced some tough competition over the last few games, but we continue to see a lot of potential in this young group. We have made some adjustments to our rotations and are hopeful to have everything settled and ready as we prepare for district play.

Upcoming varsity games include September 8 at home against Leahey and September 11 in Sonora.

Junior High volleyball has also begun its season. The teams opened with a loss to La Pryor, but the Gold Team responded with a strong performance at home against Sabinal, earning a win in two sets. The Black Team battled hard against Sabinal but fell in three sets.

We are proud of the continued growth, effort, and improvement throughout both our high school and junior high volleyball programs.

Cross Country

The Brackett Cross Country program continues to show tremendous growth and improvement throughout the 2026 season. At the Del Rio Invitational, our High School Girls earned 1st place as a team, while our High School Boys finished 3rd overall. Several runners also recorded

personal and season-best times, with some improving by more than a minute and one runner cutting over three minutes from his previous time.

That momentum continued at the Junction Cross Country Meet, where numerous athletes recorded their fastest times of the season. Alex, Sammie, Seth, and Dillon each improved their previous best times by more than one full minute.

Our runners continue to demonstrate hard work, determination, and steady improvement with every meet. We are proud of the progress they have made and look forward to continuing that momentum as we prepare for District on October 14, with the goal of advancing to Regionals and beyond.
