

SAFETY AND SECURITY AUDIT CONTRACT

Year 1 of 3 Year Cycle

This contract is entered into by and between Region 10 Education Service Center “Region 10” and Frisco Independent School District “District” for the purpose of conducting safety and security audits for the cycle beginning on September 1, 2026, and ending on August 31, 2029, as required by Texas Education Code (TEC) 37.108(b).

Cost of Services: District agrees to pay Region 10 for Year 1: \$33,600

The total cost of services is determined by the completed Facility List provided by the District and attached to this contract.

Scope of Work:

The Texas School Safety Center’s (TxSSC) School Safety and Security Audit Toolkit, Audit Plan Template Section 2.2 Audit Procedures, outlines 8 distinct stages of the audit process as follows: (1) Establish Safety and Security Audit Team(s), (2) Conduct Records Review Assessment, (3) Conduct Safety Climate Assessment, (4) Conduct On-Site Assessment, (5) Present audit findings to the safety and security committee, (6) Submit Final Report to board of trustees, (7) Submit safety and security audit results to the TxSSC through an online reporting tool during designated reporting period, and (8) Implement and track approved improvements.

The summaries are based on information provided by district staff, observations made during the on-site assessment, and applicable legislative requirements in effect at the time of the visit. These observations are subject to the inspector’s access and ability to assess all areas of the site. Any legislative or regulatory changes that occur after the completion of the site visit are the responsibility of the district to review and assess for applicability, and to make any necessary updates to campus procedures, practices, or facilities to maintain compliance.

Region 10 will:

- Provide the Records Review Assessment Tool for the district to complete as part of its Records Review Assessment (Stage 2). The district’s responses will be incorporated into the administration building’s site visit summary.
- Coordinate with the district contact to establish an on-site assessment schedule. Final approval of all assessment dates will remain at the discretion of Region 10.
- Conduct on-site assessments (Stage 4) and produce a summary for each site visit.
- Complete all on-site assessments no later than August 31 of the contract school year.
- Invoice the district within 30 days of completing all facilities listed by the district or no later than May 31st.

District will be responsible for completing these remaining stages:

- Establish a Safety & Security Audit Team (Stage 1)
- Conduct the Records Review Assessment (Stage 2) and provide the responses to Region 10, due within one month of the administration building site visit.
 - If Region 10 is not contracted to conduct the audit of the administration building, the district will be solely responsible for this stage.
- Conduct the Safety Climate Assessment (Stage 3)
- Present the audit findings to the safety and security committee (Stage 5)
- Complete and Submit the Final Report to the board of trustees (Stage 6)
- Submit the safety and security audit results to the TxSSC (Stage 7)
- Implement and track approved improvements (Stage 8)

We, the undersigned, do hereby express our understanding and approval of this contract.

Superintendent or Designee

Ashleigh Green
R10 Lead Safety & Security Consultant
