W006035-080326	8/3/2026	Blake Thomas	Wayne Sorrels	8/14/2026	Full Release	Pursuant to the Texas Public Information Act (Texas Government Code Chapter 552), I am formally requesting copies of the following public records and data sets for the 2026-2027 school year: 1. The current total student enrollment numbers and the established student-to-teacher capacity caps for the self-contained SAIL (Social Academic Integrative Learning) classrooms at the following elementary campuses: Bledsoe, Isbell, Robertson, Smith, and Spears. 2. The current number of students actively placed on an administrative "waitlist" or "transfer hold" for a SAIL classroom placement at each of the five campuses listed above. 3. Any district-level policies, internal operating guidelines, or administrative memoranda regarding the use of	8/14/2026	0.00	0.00

						"transfer windows," "transfer portals," or "waitlists" for students requiring centralized Special Education placements (specifically the SAIL program). If any portion of this request is denied, please cite the specific legal exemption under the Act and notify me immediately.			
W006040-080326	8/3/2026	Jose Santos	Wayne Sorrels	8/17/2026	Full Release	Good afternoon Frisco ISD, The purpose of this request is to respectfully obtain a list of high school juniors (11th graders) enrolled in Frisco ISD for the 2026-2027 school year. Requested information includes: This request is supported by Section 8528 of the Elementary and Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act (ESSA, 2015), which requires local education agencies receiving federal funds to provide military recruiters, upon request, with the names, addresses, and telephone listings of	8/14/2026	0.00	0.00

Additionally, the Solomon Amendment (10 U.S.C. § 503) provides separate authority requiring access for military recruiters, and such requests are not prohibited by the Family Educational Rights and Privacy Act (FERPA). If you have any questions or concerns regarding this matter, please do not hesitate to contact me.	8/17/2026	0.00	0.00
						Pursuant to the Texas Public Information Act (Texas Government Code Chapter 552), I request a copy of the following existing record: 1. The District's complete library catalog / holdings, provided as one file per campus – a separate export for each school library, in Microsoft Excel (.xlsx) or CSV. For each title and copy, please include: title, author, ISBN, call number/Dewey, material/item type,			

Reference No	Create Date	Customer Full Name	Assigned Staff	Update Date	Request Status	Public Record Desired	First Response Date	Total Fees Charged (\$)	Total Time Spent (h)
						campus/sublocation, and copies (total and available). Please provide the export broken out by campus (one file per campus), not a single combined district-wide file. A per-campus export captures each school's full collection and avoids the district-level 10,000-title report cap that can truncate a combined report. If the District's library uses Follett Destiny, each campus file exports natively with no new software: Reports → Library Reports → Catalog: Titles & Copies → Title & Copy List; Select By: Title (leave the from/to fields blank for all titles); Show Titles: an option that includes copies; Output as: Microsoft Excel – run once per campus. If the District uses a different library system, the equivalent per-campus catalog or shelf-list export to Excel or CSV is equally acceptable.

						job title/position, work email address, age, and salary. Please provide the records in a spreadsheet format (Excel or CSV) if available. If a spreadsheet is not available, any electronic format is acceptable. Please organize the data with each field in a separate column. Example: James, Miler, Austin High School, Teacher, jamesmiller0@gmail.com, 35, \$50,000. If any requested information is exempt from disclosure, please provide the remaining responsive records and cite the applicable legal exemption(s) for any information withheld. Thank you for your time and assistance.

W006046-080526	8/5/2026	Woo Park	Wayne Sorrels	8/14/2026	No Responsive Documents	We request all records, including executed contracts, purchase orders, invoices, and solicitation/RF P documents for products or services purchased from Bobrick, Excel Dryer, Georgia Pacific, Kimberly Clark, and World Dryer, covering the past three years to present. W006047-080626	8/6/2026	Taylor Goldenstein	Wayne Sorrels	8/6/2026	Withdrawn	A few follow-up items as I work through the data: 1. Docking policy: Could you send the board policy, handbook language, or other written guidance governing how Frisco ISD calculates dock rates for DOCK - DAILY RATE and EXT LEAVE deductions? Specifically, I'm trying to understand whether the daily rate is based on an employee's full contract salary, is	8/6/2026	0.00	0.00

						capped at the substitute pay rate, or is calculated some other way, and how that differs (if at all) between regular dock days and extended leave. I think there was some confusion about my narrowing of the request – I was narrowing the part that had to do with the docking data, but that was not supposed to be taken to mean I did not want the other parts of the request. 2. Relatedly, I also still need substitute cost data. The production I received includes dock records only – employee, dock code, class title, check date, and dollar amount. I'll also need substitute pay/cost records linked by teacher subbed for and/or date and campus. Could you let me know if you're planning to send that as well? 3. Duplicate entries: Several employees have multiple identical or near-identical line items – same employee, dock code, and check

						date, with matching or penny-level-different dollar amounts. For example, S— S— has 20 "PROF DOCK - EXT LEAVE" rows that resolve into four nearly identical sets of five. Can you confirm whether these reflect legitimate separate distribution lines (e.g., split across funding sources or pay periods) or a duplication issue in the export? 4. Positive dollar amounts: 49 rows in the file show positive (rather than negative) dollar amounts, and I'm not sure if those are maybe reversals or corrections — some are fairly large (e.g., one employee has a + \$4,485.00 entry). Could you confirm what these represent and whether they should be netted against the corresponding dock or excluded from a total-docked -pay calculation?
