A total of \$50,970.00 to be used by Health programs, including Nurse Refresher.

BACKGROUND:

Renewing the warranties will provide continued access to manufacturer support and coverage for the simulators, helping protect the significant investment the organization has already made in this equipment.

The Gaumard warranties were selected through the district's applicable procurement process and are the sole source vendor for Gaumard Scientific simulators.

The warranty provides the district with protection against covered defects, failures, or necessary repairs associated with the simulators. This coverage is intended to reduce unexpected repair or replacement costs, minimize service interruptions, and help ensure the continued reliability and functionality of the simulators. Approval of the warranty will help protect the district's investment and support continued operations.

The quote was originated on September 8, 2026 and is good through October 8, 2026 with a Net 45 payment term specified at the bottom of page 3.

The warranty agreement for **Victoria V2510763** will be effective from the order date and will expire three years thereafter.

The warranty agreement for **Al Hal Z2401165** will be effective from the order date and will expire 1 year thereafter.

The warranty agreement will cover parts and labor for covered repairs, an annual preventative maintenance service at the customer site, on-site repairs, if available, a loaner if the product needs to be sent to the factory for repair, and technical support M-F 8am-5:30pm EST. All warranty work is guaranteed for the term of the plan coverage. Gaumard will repair or replace products at its sole discretion.
