Background Information

The board will discuss Red Wing Public Schools Strategic Plan.

A strategic plan for a Minnesota school or district is a long-term roadmap that guides academic goals, operations, and community engagement to support student success.

The Red Wing Public Schools Strategic Plan includes a transformative vision called Flight Path 2030. The long-term roadmap aims to empower students through community partnerships, innovation, and outdoor-focused discovery.

Key Strategic Pillars

- **Innovation & Core Values:** Embracing creative learning approaches, fostering a sense of belonging, and maintaining strict safety, responsibility, and civic engagement standards.
- **Inquiry-Based Learning & STEAM:** Expanding project-based learning and hands-on science, technology, engineering, arts, and mathematics. This includes partnering with regional entities like the **3M Future Makers Labs** and utilizing Red Wing's natural bluffs and rivers for outdoor environmental science.
- **Eliminating Opportunity Gaps:** Offering personalized interventions, supporting the state READ Act literacy goals, and ensuring equitable access to advanced coursework.
- **Responsive & Caring Environments:** Building reliable professional learning networks for teachers and implementing culturally responsive teaching practices.
