Fixed Rate Investment Activity

This section shows all of the fixed term investments purchased and sold, maturities, interest received, and activity. This will include all CD, SDA, CP, securities and money market funds purchased through PMA Financial Network, LLC or PMA Securities, LLC as applicable. It also shows the approximate market value of each security and DTC CD whose price is obtained from an independent source believed to be reliable. However, PMA cannot guarantee their accuracy. This data is provided for informational purposes only. Listed values should not be interpreted as an offer to buy or sell at a specific price. Other CDs and CP are listed at their original cost. Redemption of a CD prior to maturity may result in early withdrawal penalties. Market values are based on the last day of the month for which this report date range is ending. If the run date of this report is prior to the end of the current month, the market values are listed as equivalent to the cost values.

Insured Cash Sweep Activity

Insured Cash Sweep (ICS) is an insured money market deposit account. ICS money balances are recorded under the "relationship bank" as shown above. The individual reciprocating banks in which your funds are placed will not be identified on the confirmation as they may change daily. A list of individual reciprocating banks will be provided upon request. PMA monitors investment balances placed through the PMA Network. Any investment activity outside the PMA Network while using ICS may result in placements in excess of FDIC insured limits. ICS investments are limited to clients of PMA whose investments (excluding the client's local bank) are fully managed by PMA and utilize the PMA Network. If you make or intend to make investments outside the PMA Network, you are not eligible for this program and should advise PMA immediately. Prior to investing outside the PMA Network, ICS investments must be liquidated to prevent placements in excess of FDIC insured limits.

Additional Disclosures

All funds, and/or securities are located and safe kept in an account under the client's name at their custodial bank. Any non-DTC CD listed is located in the client's name at the respective bank. Any money market fund shares are held directly with the money market fund. Debt Securities

Some debt securities are subject to redemption prior to maturity. In the event of a partial or whole call of a security, the securities call will be automatically selected on a random basis as is customary in the securities industry. The probability that your securities will be selected is proportional to the amount of your holdings relative to the total holdings. Redemption prior to maturity could affect the yield represented.
