Dr. Plourde,

Thank you for your response. I am willing to narrow parts of my September 4 FOIA request to reduce the number of records while still obtaining the information I originally requested.

For Item 1, you can limit the request to district-wide training and training that applied to employees at Stillman Valley schools.

For Item 3, I am requesting the agendas, presentations, handouts, written guidance, and training outlines that were actually provided or presented to employees. If outside videos or training programs were used, the name or link to those materials is sufficient.

For Item 4, I only need enough documentation to show who attended or completed each training. I do not need multiple copies or different records showing the same information.

For Item 5, I will narrow my request to policies, procedures, directives, protocols, or staff guidance that were created, revised, redistributed, or specifically communicated to staff between May 1, 2026 and September 4, 2026.

I would like Items 2, 6, and 7 to remain as originally requested.

I especially do not want to narrow Item 7 regarding the September 4 district-wide training. I am still requesting the information listed in my original request, including records showing when that training was first scheduled, planned, requested, or approved, along with communications regarding the scheduling, organization, purpose, or content of that training.

Please let me know if these changes are enough for the District to process my request without treating it as a voluminous request. If there is still a specific part of my request that is causing it to be considered voluminous, please let me know which part so I can review it.

Thank you,

Katerina Watson
