Background Information

Each school district is required to report the number of students it has enrolled on the sixth day of school and we use this number as a basis for comparing our enrollment over time. This information is reported to the Regional Office of Education each September.

Current Situation

The sixth day enrollment for the 2026-2027 increased by .58% since the 2025-2026 school year. The official numbers for each grade level are seen below:
