

Training

The Board delegates to the Superintendent the authority to:

1. Determine the artificial intelligence (AI) training program to be used in the District;
2. Verify and report compliance with training requirements in accordance with guidance from the Department of Information Resources; and
3. Remove access to the District's computer systems and databases for noncompliance with training requirements as appropriate.

The District shall complete periodic audits to ensure compliance with the AI training requirements.

Use in District

Employees who have completed required Artificial Intelligence (AI) training, signed the District AI User Agreement, and have been granted access through District-approved administrative procedures may use District-approved AI tools in accordance with Board policy, administrative regulations, and District guidelines. AI may be used only to support and enhance teaching, learning, productivity, and operational efficiency and shall never take the place of shall never replace the professional judgment of employees or the instructional decision-making of teachers and shall always require meaningful human oversight. Any use of AI must comply with law, policy, and administrative regulations relating to student and employee privacy and data security.

Student access to and use of artificial intelligence (AI) shall occur only in accordance with District-approved implementation procedures and administrative regulations. Students may use only District-approved AI tools for authorized instructional purposes and only as permitted by the supervising teacher. Any unauthorized use of AI, or use of AI in violation of Board policy, administrative regulations, the Student Code of Conduct, or academic integrity expectations, may result in disciplinary action in accordance with applicable Board policy.
