

Superintendent Comments
Regular Board Meeting
October 27, 2026
5:00p.m.

1. Flight Path 2030 Update
Jonathan Trevathan will be available to discuss the current status of Flight Path 2030. He will have information on classes as well as the work being done systematically.
2. Transportation Update
I will have information including the rollout of tracking, and routes.
3. Referendum Update
I do not have much additional information to offer at this time.
4. Jefferson Building
Everything is on track to complete the purchase agreement of Jefferson. The Port Authority has a meeting on Thursday, Oct. 29th and they anticipate being able to move forward as expected. There is a chance that something could get delayed. As such, **I recommend a motion to approve authorization to extend the purchase agreement with the Port Authority until Nov. 30, 2026 should it be needed.**
