CHELSEA SCHOOL DISTRICT
Board of Education Report

Safety and Security

Nov 2, 2026

CURRENT HIGHLIGHTS:

- [ ] National School Safety Week was a success! Multiple buildings throughout the district competed safety drills. Teachers and admin conducted safety lessons with the students throughout the week.
- [ ] Secure Environment Consultants (SEC) started the assessment on Friday, Oct 30th, and will complete the second half on Tuesday, Nov 3.
- [ ] I continued with the same school building rotation as last year, which the building principals have approved and prefer. Those visits have been going well.

LOOKING AHEAD:

- [ ] Post SEC's security assessment, I plan working with the Superintendent/Assistant Superintendent, the Operations Director and Technology Director on amending the previous safety and security needs for Chelsea School District.

Respectfully Submitted,

Greg DeGrand
Director of Safety & Security
