As noted on September 1, I have already voluntarily authorized standard redactions and explicitly waived any items requiring an Attorney General opinion to eliminate administrative delays. The District has no legal basis to withhold the remaining, non-exempt communicatio ns sent or received by these three individuals during that one-week window. Please re-open this request, run the search to include all communicatio ns to/from the named individuals for the specified dates, and provide a complete production. 						following community feedback, and any enrollment or capacity projections used to compare them. I'm especially interested in which areas were considered for assignment to Lebanon Trail versus neighboring high schools, and whether the decision to open Lebanon Trail with only ninth grade affected those alternatives. Could you share any existing maps, presentations, planning documents, or Board materials that address those options? If another office maintains the historical records, I would appreciate a referral. Electronic copies are ideal; please let me know before incurring any retrieval charges.
