3. Add a Math Goal to the School Board Improvement Goals.

Background Information: After Superintendent worked with school principals regarding a board math goal, we would like to suggest the following:

Begin with a goal around growth:
Based upon NWEA MAP Assessments: The percentage of students meeting or exceeding projected growth targets will increase annually.

During the January In-service with staff, we would like to engage staff in these conversations to develop an achievement goal that will have their buy-in, belief that it is possible and commitment.

Discussion:
