Subject: Approval of the 2026-2027 Tuition Rate for Students

BACKGROUND INFORMATION

For the 2026-2027 school year, the current annual charge for tuition-based students is $10,800 per student. To continue to cover rising costs, the recommendation for 2027-2028 is a tuition rate of $11,000 per student, which represents a 1.85% increase in the annual tuition rate, which is approximately half the Consumer Price Index annual increase for the year ending September 2026 for Urban populations.

The following table provides the tuition rate for the past two years and the proposed rate for 2025-2026.

25-26 Rate	**26-27 Rate**	**% Change**	**Proposed 27-28 Rate**	**% Change**
$10,600	$10,800	1.88%	$11,000	1.85%

Sample Motion: I move to approve a 2027-2028 tuition rate of $11,000 per student as presented.
