Subject: Consideration to Continue Participation in the National School Lunch & Breakfast Program

BACKGROUND INFORMATION

Every five years, the Texas Department of Agriculture (TDA) requires programs who utilize Food Service Management Companies (FSMC), to present for public bid food and nutrition services. This process is closely monitored by TDA and requires preliminary approval for any campus included in a potential FSMC bid. The TDA deadline for the 2027-2028 school year regarding this notice is December 4, 2026. As such, it is appropriate at this time to discuss which campuses may benefit the most from participating in the program.

This section includes an examination of data for continued participation by the Alamo Heights Junior School in the National School Lunch & Breakfast Program.
