

May 13, 2026

Dr. Hampton,

I am requesting the disposal of some of the dated and damaged Science Equipment at Joliet West campus. The equipment is nonoperational and has been replaced by updated Microscopes. The equipment has exceeded their expected lifespans. Please consider my request for the disposal of 13 microscopes that are no longer functioning.

None of the microscopes will require special disposal.

Thank you,

Pat O'Neill
