SHARED TIME PROGRAMS

Enrollment in class offerings of the school district.

- A. A home-schooled child who is a resident of the school district may enroll in in- person classes in the school district as a shared time pupil on the same basis as other nonpublic school students. The provisions of this policy shall not be determinative of whether the school district allows the enrollment of any pupils on a shared-time basis.
- B. The school district may limit enrollment of shared-time pupils in such classes based on the capacity of a program, class, grade level, or school building. The school board and administration retain sole discretion and control over scheduling of all classes and assignment of shared time pupils to classes.
- C. Shared time students may participate in district extracurricular activities at the discretion of the school board. Students competing in activities governed by the Minnesota State High School League must meet and adhere to eligibility rules and requirements of the League.

Specific school assignments for shared time students will be determined by the Superintendent of Schools or designee.
