

MAP Assessment - spring 2026

Board of Education meeting

June 2026

Strategic plan

Academic success

CCSD 89 will provide an engaging and supportive learning environment that inspires every single student to reach their full potential.

Social-emotional development

CCSD 89 will provide a welcoming educational environment where every student can develop confidence, empathy, and well-being.

High-quality staff

CCSD 89 will hire, retain, and support a highly-qualified workforce.

Community engagement

CCSD 89 will cultivate meaningful partnerships with families and community agencies to enrich learning opportunities.

Effective use of resources

CCSD 89 will use resources responsibly to provide safe schools where students have the tools they need to learn.

Today's presentation

- The MAP test is a national test that provides a snapshot of student's academic performance in math and reading. Staff uses the results from this test to shape instruction for each student.
- As a whole, CCSD 89 students continue to perform significantly above national MAP averages on both reading and math.
- From fall to spring, both MAP math and reading assessment scores showed strong growth across most grade levels.

About the MAP assessment

- Taken three times each school year on a computer
- Highly adaptive; no two students see the same set of test questions
- Aligned with state and national assessments

Reading	Math
Literary text	Number and operations (K-5)
Informational text	Measurement and data (K-5)
Vocabulary acquisition and use	Operations and algebraic thinking
Language and writing (K-2)	Geometry
Foundational skills (K-2)	Statistics and probability (6-8)
	Real and complex number systems (6-8)

How do staff use MAP scores?

- Review and monitor student progress over time
- Fine tuning classroom instruction
- Development of intervention groups
- Monitor progress of curriculum resource implementation
- Connect to IAR and P-ACT scores, where possible
- School Improvement planning and monitoring

Commonly used terms

- **RIT** - Score on a “stable scale” (e.g. feet, inches) representing a student’s achievement level at any given moment (also used to measure academic growth over time).
- **Achievement** - “Point-in-time” measure that evaluates how well students perform against a standard/assessment.
- **National Percentile** - Indicates a student scored as well as, or better, than the percent of students in the norm group. (A student with a percentile rank of 64 scored as well as or better than 64% of comparable students in the norm group.)
- **Growth** - Academic progress made over time
- **Projected Growth Range** - RIT points the students is typically expected to grow matching peers.

CCSD 89 fall-to-spring results

Quintile vs. growth

- **Quintile:** ALL students that participated in fall and ALL students that participated in spring
- **Growth:** ONLY students that participated in both fall and spring

MAP quintiles

Quintile 1	Quintile 2	Quintile 3	Quintile 4	Quintile 5
1st - 20th percentile	21st - 40th percentile	41st - 60th percentile	61st - 80th percentile	81st - 99th percentile
Low range	Low average range	Average range	High average range	High range

CCSD 89 fall-to-spring growth results

MAP projected growth

Grade	Fall CCSD 89 mean RIT	Spring CCSD 89 mean RIT	Projected growth	Observed growth	Percentage of CCSD 89 students that met projected growth
1st	164.2	177.3	9.8	13.1	76

Average raw score of CCSD 89 first grader in fall

The average CCSD 89 first grader scored a 164 in math this fall.

Average raw score of CCSD 89 first-grader in spring

The average CCSD 89 first grader scored a 177 in math this spring.

Average projected growth for CCSD 89 first-grader from fall to spring based on 2020 norms

The average CCSD 89 first grader grew 13.1 in math.

Average actual growth for CCSD 89 first-grader from fall to spring

The average CCSD 89 first grader grew 13.1 in math.

Percent of CCSD 89 students who met projected growth based on the 2020 norms

76 percent of CCSD 89 students met their projected growth.

Fall to spring MAP growth - reading

	Fall CCSD 89 mean RIT	Spring CCSD 89 mean RIT	Projected growth	Observed growth	Percentage of CCSD 89 students that met projected growth

2025-26	69	85	71	56	59	46	52	64

District growth goals 2025-2026

Percent of students that met projected growth target

	Goal	Actual
Reading	55	63.8
Math	60	62.6

Looking ahead

- CCSD 89 students continue to perform significantly above national MAP averages on both reading and math.
- Staff will use the results from the MAP test to shape instruction for each student, including strategies that will address achievement gaps.
- Staff will use the results when we plan school-improvement goals for next year at the data retreat.
- We will compare this data to other assessments for reliability.
- We are planning to review our math standards and resources at the middle school level in the near future.

MAP Assessment - spring 2026
