

COMMUNICABLE DISEASES SLIDES 2026

BACKGROUND

Three public hearings to review Communicable Diseases Slides for the elementary grade level were held during the month of February 2024. It is proposed that these slides fulfill the requirements of the Revised School Code 380.1169 and be delivered to 5th grade students. The proposed materials were also presented to the Board of Education in two board briefs and they were also a discussion item on the 2/27/24 BOE Work Session. A new motion is required as the language has changed from “every level (elementary, middle, high)” to “grades 3 through 5” specifically in the Michigan Health Education Standards and Guidelines.

ENCLOSURE(S)

Proposed 5th Grade Communicable Diseases Slides

RECOMMENDATION

Move to approve the Communicable Diseases Slides for grade 5
