

Changes to Region 7 Service Agreement 26-27

1. **WriteAlign** \$7464.00 <https://www.esc7.net/apps/pages/WriteAlign-ecr-grader>
WriteAlign is an innovative, educator-focused, AI-powered, online tool developed by the Digital Learning Department at Region 7. Designed to meet the growing demands of writing instruction and assessment, WriteAlign streamlines essay scoring, supports data-driven decision-making, and enhances instructional quality across districts. WriteAlign helps educators evaluate and strengthen student writing using the official STAAR Extended Constructed Response (ECR) rubric. By combining automated scoring, exemplar responses, and actionable feedback, the platform ensures consistency, accuracy, and alignment with state rubrics. We purchased WriteAlign in September 2025 at a cost of \$10,205 using general budget funds.
2. **School Board Support Services** \$2500.00
School Board Support Services helps school boards meet required training and maintain effective governance practices under Texas law. Region 7 provides coordinated training, compliance tracking, and governance development to help districts meet required training hours and topics while reinforcing the roles of the board and superintendent. Benefits include full access to online training for required and supplemental governance learning, which will allow board members to complete required trainings while minimizing travel costs.
3. **TEKSready** \$5465.25
https://teksready.com/?trk=public_post-text&utm_source=chatgpt.com TEKSready provides prebuilt, TEKS-aligned assessments designed to measure student knowledge at the beginning and end of the school year. The assessment items are developed by content experts and reviewed for rigor, alignment to Texas standards, and appropriate depth of knowledge. TEKSready will simplify the process of measuring student growth, particularly in non-tested grades and subjects, while supporting Teacher Incentive Allotment (TIA) requirements. The platform includes assessments for a wide range of content areas, including Career and Technical Education (CTE) courses and Spanish assessments, helping ensure equitable and consistent growth measures across multiple programs and student groups. These assessments can be used for pre-assessments, interim assessments, and post-assessments to provide reliable student performance data throughout the year.

2025-2026 Region 7 Contract- \$1701.94

2025-2026 WriteAlign- \$10,205

Total- \$180,399.17

2026-2027 Region 7 Contract- 186,812.68
