Browning Middle School

Browning Middle School Gear Up Program

The **Gear Up Program** at Browning Middle School has been excellent for putting students on campuses to experience the hands-on environment of the college setting. Gear Up has already completed 2 campus visits this year to Flathead Valley Community College and Salish Kootenai Community College. There are two groups of students that will travel to FVCC and there's an upcoming AIMS (American Indians in Math and Science) trip in February. Kudos to Gear Up for getting our students putting foot on campuses for that first hand experience!

Browning Middle School students visit University of Montana

Browning Middle School is proud to announce the new Assistant Principal is Ms. Racquel Little Plume. Racquel was previously the 8th Grade Science Teacher and has gladly accepted this new position. Racquel has been in the Browning Public School for 6 years as the Science Teacher and Technology Teacher. Welcome Racquel!
