

**Henderson ISD  
Board Background**

**Subject: Consider Approval of Request for Proposal #1- High School Serving Lines**

---

Presented for: Action  Report Only

**Background Information**

In compliance with the code of federal regulation, 2 CFR.210.21, HISD Child Nutrition placed an advertisement requesting proposals for the modification of existing serving lines at the high school on March 29, 2026. The purpose of these modifications is to replace equipment that was purchased in the 2005-2006 school year. To update the appearance and functionality, the serving lines will be modified to incorporate an open-air merchandiser, over shelf display for a la carte items, and installation of a milk dispensing station. The modification will also include removing the ice and water dispensers from the servings lines and incorporating them into the cafeteria, thus allowing easier access to water and ice during the day for students. This modification and all costs associated with this project will use child nutrition funds. After cost analysis, the anticipated costs of the project are \$430,000.

After reviewing the proposals and completing evaluation criteria in compliance with the Code of Federal Regulations 2 CFR section 200, the recommendation is to approve Reliance Refrigeration as the awarded vendor for RFP 1- HS Serving Lines.

**Recommendation:**

The recommendation is to approve Reliance Refrigeration as the vendor for RFP 1- HS Serving Lines.
