

DUAL CREDITS

The Nye County Board of Trustees recognizes that the educational opportunities offered by the Nye County School District are enriched when qualified secondary students are permitted to enroll in and receive credit for courses offered by accredited institutions of higher learning. Dual credit (both high school and higher education) is to be awarded for any course above the “100” level that the student takes in an institution of higher education.

The superintendent is authorized to negotiate and enter into cooperative agreements with such institutions when such agreements are consistent with this policy. The only exception to this authorization pertains to the requirement for dual credit courses, which must be approved by the Board of Trustees before being forwarded to the Nevada State Board of Education for final approval.
