

Memo

To: Board of Education
From: Dianne McDonald
Date: June 16, 2026
Re: Instructional Materials (*Policy 6:210*)

According to *Board Policy 6:210*, all District classrooms and learning centers should be equipped with an evenly proportioned, wide assortment of instructional materials, including textbooks, workbooks, audio-visual materials, and electronic materials. These materials should provide quality learning experiences for students and:

1. Enrich and support the curriculum;
2. Stimulate growth in knowledge, literary appreciation, aesthetic values, and ethical standards;
3. Provide background information to enable students to make informed judgments and promote critical reading and thinking;
4. Depict in an accurate and unbiased way the cultural diversity and pluralistic nature of American society; and
5. Contribute to a sense of the worth of all people regardless of sex, race, religion, nationality, ethnic origin, sexual orientation, disability, or any other differences that may exist.

Per *Policy 6:210*, the Superintendent or designee shall annually provide a list of textbooks and instructional materials used in the District to the School Board. During the 2025-2026 school year, the following approximate amounts were expended on new textbooks, replacement textbooks and workbooks from district accounts:

- New Textbooks: \$66,028.08
- Replacement Textbooks: \$53,426.50
- Workbooks: \$0

In total, \$119,454.58 was spent on the above resources from the district textbook fund during the 2025-2026 school year, compared to \$435,003.94 spent during the 2024-2025 school year. There will be an expected increase in costs for the 2026-2027 as new resources are needed for AP Human Geography and our dual credit courses.

The textbook/workbook list that was utilized during the 2025-2026 school year is attached to this memo.

Memo
