

PRACTICE EVACUATION OF SCHOOL BUSES

At least twice during each school year, all students enrolled in the Nye County School District who ride school buses to and from school must practice the emergency evacuation of the school bus. This practice will be completed in accordance with the provisions outlined in the State of Nevada School Bus Drivers Training Manual as adopted by the State Board of Education.

The Transportation Supervisor shall:

1. Establish a uniform procedure, which is followed by all bus drivers in carrying out the practice evacuation of buses.
2. Establish a uniform procedure for recording all practice evacuations, and maintain those records for one (1) full year after the practice sessions.
3. Insure that each school bus driver practices an evacuation of the bus prior to each field trip conducted by the District. (A field trip is a trip which is listed in the Field Trip Manual or is approved the Curriculum Director and has a specific educational objective which has been planned by the teacher.)
