

Safety Report for April 2026 School Board Meeting Highlighting March 2026 Activities

Department: Safety
 HR|Business Services Committee: 04.13.2026
 Regular Board Meeting: 04.21.2026
 Report Prepared By: August Leopold

Health and Safety Topics:

● Regulatory Requirements

- Potential to emit (PTE) calculations were verified, no air permits will be needed
- Hazardous waste disposal records and applications were submitted to the pollution control agency
- Lead in Water testing (due to start in May) has been scheduled with IEA
- All aerial lifts inspections and corrections have been completed
- State fire marshal inspection corrections have been completed and approved for Lakewood and Homecroft

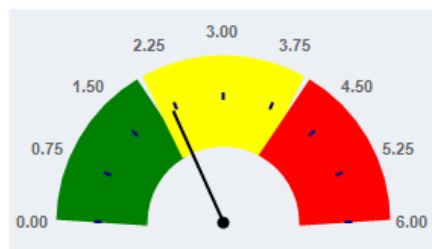

● Trainings and Planning

- March Lifeguarding training was postponed due to scheduling conflicts, rescheduled for April
- Safety walkthroughs have begun with IEA, the goal is to have all buildings completed by mid-June. Lakewood, Homecroft, Lester Park, and Congdon Park have been completed
- Lock Out Tag Out (LOTO) standard operating procedure is under review

● Employee Injury Update for February

- Our total case injury rate (TCIR) for March 2026 was 2.19, an improvement from last month. Our year to date TCIR is now 2.15. We had a total of 26 reports of injury with two of them being OSHA recordable. Both recordable injuries this month were from slips, trips, and falls. Neither due to snow and ice. Our highest category for reported injuries remains injured by student.

Incidents - Total Case Incident Rate

This month

Incidents - Employee Injuries by Cause of Injury (Primary)

Struck By Strain or Sprain
 Injured by Student
 Cut, Puncture, Scrape
 Fall, Slip, or Trip

Year to Date
