SUBJECT: Contract with eLuma for School Psychologists

The Special Education Department had maintained an unfilled position for a school psychologist for the past 3 school years when it first sought virtual services. School psychologists play a vital role in special education eligibility, targeted interventions, and student support. We went to bid to staff a school psychologist for the 2024-2025 school year and had two proposals submitted for review. The committee awarded the contract to eLuma. Their comprehensive plan, ability to meet our needs, and local access and positive references made them the ideal contract. The implementation was previous school years and we would seek to continue the contract for the 2026-2027 school year. Total contract budgeted amount is \$214,617.60 for 1.8 FTE; which is an all inclusive, fully burdened cost and comparable to our current psychologists pay plus benefits. This is comparable to the cost for our in-person school psychologists for salary and benefits. Thank you for your support of our special education students.
